

FOI3273– Concerning adult mental health service users.

We can confirm that Southern Health NHS Foundation Trust can advise as follows in response to your Freedom of Information Request:

I would like to request, under the freedom of information act, the following information for adult mental health services in the **Southern Health NHS Foundation Trust**.

Please note that we are unable to give monthly breakdowns in all cases as per your request due to low numbers of patients in some types of accommodation.

We have therefore applied an exemption under Section 40(2) of the Freedom of Information Act. This is an absolute exemption that covers personal third party data where disclosure would breach the Data Protection Act 1998's principles concerning personal information.

We believe that disclosing this information would allow for the respective persons to be identified and, given the personal and sensitive nature of the information, disclosure of this information would not constitute fair processing of their personal data, and would thus breach the first data protection principle (personal information must be fairly and lawfully processed).

Where low numbers of patients are indicated (between 1 and 5), this information has been removed.

However, we are able to provide annual totals and these have been included.

Please note that there is a category described as "null" in the attached spreadsheets. We would advise that this category is used when the accommodation field has not been completed by staff.

1. The total number of people in contact with **adult mental health services** broken down into accommodation status codes such as tenant, owner occupier, care home, rough sleeper, etc. Please use the accommodation status codes specified in M003010 (as seen in the [Data Set Specification \(Amd 43/2019\)](#) file).
